

V&V VEHICULOS VIP, HAS UPDATED THE STANDARD SERVICE PROCEDURES TO PROTECT AGAINST THE THREAT OF COVID-19. WE ARE TAKING EXHAUSTIVE MEASURES TO PROTECT PASSENGERS AND ALL PERSONNEL OF THE COMPANY AND AFFILIATES.

Chauffeur hygiene procedures

- Employees are not permitted to work if they are displaying COVID-19 symptoms or unusual body temperature.
- Handwashing as frequently as possible and between each ride and/or stop.
- Wear a mask at all times when near a passenger.
- Chauffeurs only handle luggage after obtaining consent from the lead passenger and thoroughly disinfecting their hands immediately before and after doing so or using disposable gloves when doing so.
- Chauffeurs do not initiate handshakes and avoid all personal contact with passengers.

Passengers hygiene procedures

- Passenger should wear mask and use individual packaging disinfectant.
- Hand wipes at their discretion placed on board.
- We will sanitize onboard amenities and place them in individually sealed plastic bags handed over on request.
- The use of the passenger front seat is prohibited.

Vehicle sanitation procedures

- Each vehicle's interior and exterior are thoroughly sanitized before and after every service.
- Chauffeurs increase ventilation by opening windows, keeping fans "on" and re-circulation "off" to ensure fresh air flow into the car as is comfortable.
- All occupants must keep an appropriate distance between each other and respect seatings indications.
